## SMART WATER LEAK DETECTOR WL4200S

### PROTECT YOUR BELONGINGS FROM WATER DAMAGE

The WL4200S smart water leak detector notifies you as soon as a water leak or a temperature drop occurs. Quickly receive a notification by e-mail or text message allowing you to intervene in a short time before significant and costly damage occurs.\*

Its design, with remote sensor, allows it to be easily installed even in the least accessible places such as the back of the washing machine or under the dishwasher. Combine it with a Sinopé smart water valve to close the main water supply as soon as a leak appears.

**Ideal for:** house, cottage, multi-housing property managers and commercial buildings

\* Required: Sinopé smart water valve or compatible zigbee hub

WL4200S

# SMART WATER LEAK DETECTOR WL4200S

## ADDED VALUE

- 4 ft [1,2m] wire probe to monitor hard to reach areas
- Battery powered for continuous operation
- Easy installation and fast connection
- Temperature sensor that warns you when a temperature drop occurs to avoid burst pipes
- Audible alarm alerts you even during power outages
- Connects to a Sinopé smart water valve or a compatible zigbee gateway
- 3-year warranty

## OPERATION

- The smart water leak detector notifies you of the presence of a water leak as soon as it is detected.
- Audible alarm and notification sent by e-mail or text message as soon as a water leak or a drop in temperature is detected or when the batteries are low.\*

\* E-mail or text notification requires the installation of a Sinopé smart water valve or a compatible zigbee gateway (not included)
