

Ductless heat pump interface

HP6000ZB-GE

TH1134ZB/HC*

Ductless heat pumps and air conditioners equipped with a compatible communication port

*Possibility to combine the HP6000ZB-GE with the TH1134ZB/HC thermostat for a better use of the electric baseboard heater and the heat pump in the same room (air conditioning and heating interlocking).

■ FEATURES

- Allows to control the heat pump via the platforms (Neviweb and Sinopé Smart Systems)
- Possibility to ignore the remote control of the heat pump to control it only with Sinopé Smart Systems and/or Neviweb and/or with the Sinopé TH1134ZB/HC thermostat
- Associated with the TH1134ZB/HC thermostat, the HP6000ZB-GE allows the interlocking of the air conditioning and the electric heating in the same room

*These features are available in Neviweb and Sinopé Smart Systems and require the use of the GT130 gateway. The features may vary from one platform to another.

■ COMMUNICATION

Protocol: Zigbee 3.0

Frequency: 2.4 GHz

Transmission power: +20 dBm

Receiver sensitivity: -108 dBm

Encryption key: AES-128

■ STANDARDS

Complies with FCC15 /NMB-003

- **Control modes***: Cool, Heat, Dry, Fan and OFF
- Adjustment of the orientation of the heat pump louvers
- Adjustment of the fan intensity
- Activation or deactivation of the display on the heat pump head
- Create automations that run based on time, sunrise/sunset, device action, or your presence
- Automate the interlocking of air conditioning and heating in all rooms of the house thanks to an automation between devices with the Sinopé thermostats of the different rooms.
- Activate personalized ambiances according to the time of the day, events or activity thanks to the scenes
- Setpoint control
- Voice assistants: compatible with Amazon Alexa and Google Assistant
- Advanced features in Sinopé Smart Systems [e.g. prioritization of heating by the heat pump when it is more efficient than the baseboards]**

These features are available in Neviweb and Sinopé Smart Systems and require the use of the GT130 gateway. The features may vary from one platform to another.

* Feature available on models that allow this function

**Requires the TH1134ZB/HC heating and cooling line thermostat

■ COMPATIBLES HEAT PUMPS

Scan the QR code to see which heat pumps and air conditioners are compatible with the HP6000ZB-GE.

■ TECHNICAL SPECIFICATIONS

Power supply: via heat pump / air conditioner communication port

Operating temperature: 32 °F to 104 °F [0 °C to 40 °C]

Storage: -4 °F to 122 °F [-20 °C to 50 °C]

3-year warranty

sinopé

T: 450.741.7700
TF: 1.855.741.7701
